SPECTRA VENTURA 200c "Connect" WATERMAKER 200GPD / 8.3GPH

The Spectra Ventura series is engineered for the smaller vessel to be energy-efficient and lightweight. These watermakers are composed of compact modules, making for easy installation in confined spaces.

The same size as the Ventura 150c, but designed for warm water above 50°F (10C), the Ventura 200c delivers over 8 gallons (31 liters) per hour. With its modular design, it's an ideal system for installation in tight spaces whether you're cruising or racing. The Ventura 200c features the new Spectra Connect controller, which allows you to operate and monitor your watermaker from a remote device. Spectra Connect also has new added features like the Fill Tank mode, or a customizable Auto Run mode, One-Touch Sensor Calibration, and suggested maintenance intervals displayed on the dashboard.
