

Katadyn PowerSurvivor 160E

The great choice for larger crews

Simplicity - The 160E is the easiest to maintain of any product at this output level. Periodic maintenance can be performed with only a few common tools and easy to follow instructions. Simple to install, operate and maintain.

Compactness - The 160E is very compact. With separation of the membrane module and the pump/motor unit, the 160E can fit into even the tightest of spaces.

Efficiency - Using the patented Energy Recovery System, the 160E produces copious amounts of water with low energy consumption.

Durability - The 160E uses stainless steel for pump housings. As with all of our models, they are covered by the best warranty in the business: 3 years on all components.

Special - The PowerSurvivor-160E delivers 25.4 litres per hour with the simplicity of the smaller systems.

 Technology	Reverse Osmosis
 Output (+/- 15%)	7 gal/h 25.4 l/h
 Salt rejection (average)	98.4% (min 96%)
 Weight	36 lbs 16.3 kg
 Dimensions	6 x 16 x 14 " 15.2 x 40.6 x 35.6 cm
