## Navi light Sport hunter edition Special Stealth Version

**Navi Light Sport, Stealth Armband and Reflection Cover included**  
**Waterproof – Marine Quality Light**  
**Normal, Night and Stealth modes**

The Navi light Sport extended the hugely successful Navi Light range of portable waterproof lighting products. The “hunter edition” combines the best features of the award winning Navi Light 360 with a compact “head torch” hidden under a black non reflecting silicone rubber hood.

### Navi Light Sport hunter edition features:

- Combines: Armband torch in hunter/stealth mode with, as needed, 360° light and Emergency flash
- Waterproof and impact resistant
- Full range of attachments and can be worn anywhere on the body.
- Special hunter mode and instant conversion to 360°light and Emergency flash when required.

### Advantages:

- Perfect to wear on upper arm or shoulder, but also on head or in hand
- Highly compact light with super-bright LEDs but very efficient, with long burn time.
- Stealth mode and wide light spread provides side vision in the dark as result of spread angled LEDs
- Night Vision mode with single Red night vision LED

**There are so many uses and needs for the Navi Light Sport – Hunter Edition!**

### HUNTING/TRACKING:

The Navi Sport – Hunter edition is ideal for hunting with night mode (stealth) lighting or as a recreational tracking light. It has multiple modes to compass all aspects of the track/hunt from stealth through directional to full light. The light converts to normal full lighting after the hunt or when camping. The marine standard waterproof qualities of the product and impact resistant moulding make the product perfect for all terrains. Can be worn on the arm with interference to shooting.

### And MANY MORE USES:

The Navi Light Sport – Hunter edition is compact and ideal for storing in the car, at work and in so many other situations. The instant conversion from night mode (hunter) to 360°light and back again, provide the adaptability for most sports, including skiing, and there is even an Emergency flash mode.
