Isotherm Cruise 160 Drink Stainless Steel (INOX) - Large Cruise refrigerator

The Isotherm Cruise 160 Drink is a large 5.5 cubic foot under counter fridge with innovative cooling evaporator protected by an aluminum shield with built-in air circulation fan that pulls cold air across the evaporator and circulates the air in a convection to keep temperatures the same on top and bottom shelves inside the fridge. A condensation tray positioned under the evaporator captures condensate and channels it out the back, into an evaporation tray. This keeps the Cruise 160 Drink frost free.

The CR160 has more storage capacity than other fridges with similar dimensions in this class of refrigerator. With three molded shelves on the door, cradles and adjustable holders, the CR160 provides ample storage to keep bottles and jars upright and secure. Vegetable bin and hatches in the three adjustable internal shelves allow the storage of tall bottles internally.

The Cruise 160 Drink Stainless Steel comes equipped with a flush-mount, 4-side stainless steel flange.

Your Advantages:

- Volume: 160 liters
- Silent, high efficient, fan cooled 12/24V Secop compressor (BD50F)
- Mounting frames for a complete flush integration
- Exclusive, complete stainless steel design (doors and handles)
- Interior light
- Extra space for drinks instead of the freezer compartment

Available Models:

C160RNGIA72113AA

Cruise 160 Drink SS - 5.5 cuft., AC/DC, Right Swing, 4-Side Stainless Steel Flange, No Freezer Compartment

C160LNGIA72113AA

Cruise 160 Drink SS - 5.5 cuft., AC/DC, Left Swing, 4-Side Stainless Steel Flange, No Freezer Compartment

Technical Details:

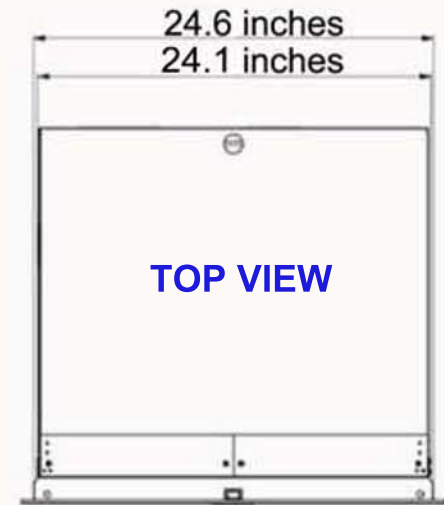

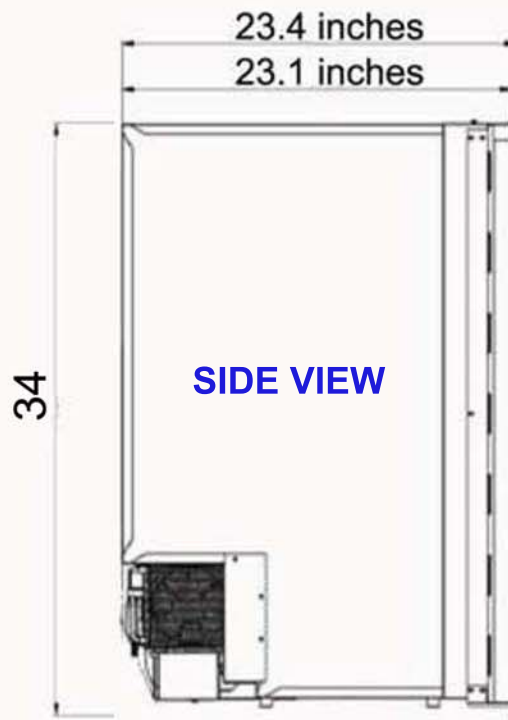

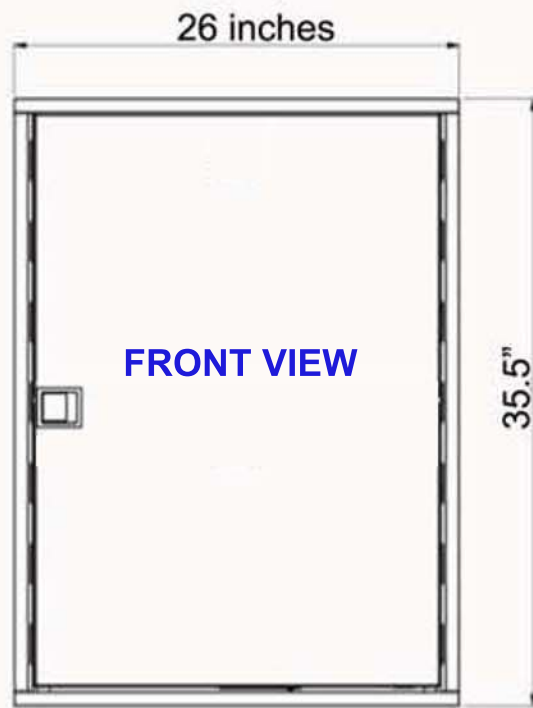

- Type: CR 160 D INOX
- Volume: 5.5 cft
- Dimensions: 34h x 24.6w x 23.4d
- Power Consumption W/24Hr: 400
- Weight: 60 Lbs.

Shipping Details:

- Shipping Weight: 62Lbs. + 20Lbs.
- Shipping Dims: 32" x 32" x 40" (small pallet)
- Country Of Origin: Italy
- Class: 150 - NMFC 53180
- Tariff Code: 8421.21.0000
